Section 4 - FIRST AID MEASURES

Eye Contact: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.

Skin Contact: Remove/take off immediately all contaminated clothing. Rinse skin with soap and water/shower. If skin irritation occurs: Get medical advice/attention. Take off contaminated clothing and wash before reuse.

Inhalation: Remove person to fresh air and keep at rest in a position comfortable for breathing. Call a POISON CENTER or doctor if you feel unwell.

If Swallowed: Ingestion may cause a laxative effect. Do NOT induce vomiting. If liquid material enters into the lungs, it can cause severe damage.

Section 5 - FIRE FIGHTING MEASURES

Flash Point: 166°C
Extinguishing Media: Dry chemical, foam or carbon dioxide.
Do not scatter spilled material with high-pressure water streams.

Section 6 - ACCIDENTAL RELEASE MEASURES

Personal Precautions, Protective Equipment and Emergency Procedures
Contain and absorb spilled material. Eliminate all ignition sources in vicinity of spilled material.
Methods and Materials for Containment and Cleaning Up: Eliminate all ignition sources if safe to do so.
Ventilate closed spaces before entering.
Environmental Precautions: Prevent entry into waterways. Avoid release to the environment. Collect spillage with absorbent material.

Section 7 - HANDLING AND STORAGE

Storage: Keep out of reach of children. Store in a closed container. Store away from incompatible materials.
Disposal: Dispose of contents/container in accordance with local/regional/national/international regulations.
Precautions for Safe Handling: Use good hygiene practices in handling the material. Avoid release to drains or waterways.
Conditions for Safe Storage, Including any Incompatibilities: Keep container tightly closed.
Incompatible Materials: Strong Oxidizing materials.

Section 8 - EXPOSURE CONTROLS / PERSONAL PROTECTION

Control Parameters: 8042-47-5, Mineral Oil, OSHA Table Z-1 Limits for Air Contaminants
Ingredient: White Mineral Oil
Exposure Limits: ACGIH TLV (United States). Notes: (oil mist)
TWA: 5 mg/m³ 8 hour(s).
STEL: 10 mg/m³ 15 minute(s).

Appropriate Engineering controls: Provide exhaust ventilation or other engineering controls to keep the airborne concentrations of vapor and mists below the applicable workplace exposure limits (Occupational Exposure Limits-OELs) indicated above.
Restoratory protection: Not required under normal conditions of use. Where risk assessment shows air-purifying respirators are appropriate use a full-face particle respirator type N100 (US) or type P3 (EN 143) respirator cartridges as a backup to engineering controls. When necessary use NIOSH approved breathing equipment.
Protection of skin: Select glove material impermeable and resistant to the substance. Select glove material based on rates of diffusion and degradation. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Use proper glove removal technique without touching outer surface. Avoid skin contact with used gloves. Wear protective clothing.
Eye protection: Wear equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166(EU). Safety glasses or goggles are appropriate eye protection.
**General hygienic measures:** Perform routine housekeeping. Wash hands before breaks and at the end of work. Wash hands before drinking, smoking, eating, or using toilet. Use good personal hygiene practices.
