Rock Doctor Granite Cleaner is specifically designed to safely clean stone countertops, vanities and table tops. The non-abrasive formula contains no harsh chemicals like many other commercial cleaners. **Rock Doctor Granite Cleaner** has a clean, fresh scent, and effectively cleans soil and stains from your stone surfaces. The convenient aerosol dispensing system assures perfect product concentration and delivery every time. **Rock Doctor Granite Cleaner** will not discolor sealed grout, and will not streak or leave any residue on your rock surfaces. Use it daily to keep your stone surfaces clean and protected.

Applications: This product can be safely used on all sealed natural and cultured marble and granite tabletops, countertops and vanities.

Contains no CFCs which deplete the ozone layer.

Directions:

1. Shake can well before using.
2. As with any cleaner, test a small area before full application.
3. Dust off any large debris that may scratch your rock surface. Holding the can 6"-8" from surface, spray desired area with **Rock Doctor Granite Cleaner**, and gently wipe with a clean soft cloth or clean paper towel.
4. For heavily soiled or stained surfaces, spray area thoroughly and let cleaner saturate stain for 1 to 2 minutes. Wipe clean with a soft cloth or paper towel.

Important: All granite and marble tabletops, countertops and vanities should be treated with a protective sealer before any cleansers are used. **Note:** Determining the appropriateness of this product for any intended purpose shall be the responsibility of the user. There are no warranties, either expressed or implied, including application for a particular purposes which extends beyond the product label description.

Caution: Contents under pressure. Do not puncture, freeze or incinerate. Do not store where temperature exceeds 120°F (49°C) or in direct sunlight. Avoid spraying into or near direct flame. Use with adequate ventilation.
