Product-Information

Dry Foam for Carpets and Upholstery

1. Product Description

A dry foam with excellent cleaning qualities as a mild shampoo treatment. For natural fibre and oriental carpets (e.g. wool, silk, coconut, jute, sisal) up-holstery, textile finish wall coverings, etc. Extremely flammable.

2. Areas of Application

Particularly suitable for the cleaning of moisture-sensitive natural fibre and oriental carpets (of wool, silk, coir, jute, sisal, hemp, among others). Also recommended for the intensive cleaning of upholstery, textile wall coverings and ornamental covers.

3. Method of Application

Thoroughly vacuum clean the carpet before using the dry foam. Shake the spray can and, with the spray nozzle pointing downwards, spray the foam evenly. Massage it in with a suitable (natural fibre) shampooing brush. When treating upholstery and finely woven materials, use a damp foam rubber wiper pad or a sponge. Allow to dry completely (approx. 2 to 4 hours) before vacuuming the treated area.

Consumption: 400 ml = 10 m²

Note: Before use, apply Dry Foam for Carpets and Upholstery in an inconspicuous place to test for material suitability, water resistance and colour-fastness.

4. Technical Data

pH level: 7.5 (concentrate)

Data on ingredients (EC recommendation): less than 5% anionic surfactants, less than 5% phosphates. Contains preservatives. Other ingredients: care components, propellant.

Dry Foam for Carpets and Upholstery should be stored in a cool, dry place in its closed original container. Protect from frost. Keep locked up and out of the reach of children.

5. Unit Sizes

6 x 400 ml aerosol can

Art.-No. 1012040016

Dry Foam for Carpets and Upholstery

The above advice on procedure for use is based on the best of our knowledge and the latest information available on cleaning technology. For this reason, when using our quality products, no damage will be incurred to the materials to be cleaned if strict attention is paid to the instructions printed on the container and the procedure suggested by us is followed. The use to which our products are put is, however, beyond our control. It is the responsibility of the user and does not release the user from making his own checks of the products supplied by us as to their suitability for the intended procedure and purposes. The information supplied by us is therefore non-binding and cannot be used as a basis for establishing the company's liability for any damage incurred. This also includes the infringement of any rights for the protection of third parties.
